

Section 3 (10 pts): Templates

Normal list state:

{# Site-wide skeleton. Every page extends this file and fills in the three blocks below, so navigation, styling and branding live in exactly one place. #}

Plan tasks

An AI Personal Career Coach - Team Career Coaches (Group 11)

{# Routes are reversed by name, never hard-coded, so renaming a URL pattern never breaks navigation. #}

[Dashboard](#) [Skills \(HttpResponse FBV\)](#) [Skills \(render FBV\)](#) [Plans \(base CBV\)](#) [Tasks \(generic CBV\)](#) [Admin](#)

View 4 - CBV, generic ListView

model = PlanTask is the whole configuration. ListView supplies the queryset, the context and the pagination.

Week	Task	Plan	Skill	Priority	Status
1	Write 5 JOIN queries against a sample schema	Data Analyst sprint	SQL & relational modeling	High	To do
1	Rebuild your resume against the job posting	UX Researcher sprint	Resume & elevator pitch	High	To do
1	Write 5 JOIN queries against a sample schema	Quantitative Trader sprint	SQL & relational modeling	High	In progress
1	Solve 10 array & hashing problems	Software Engineer Intern sprint	Data structures & algorithms	Medium	To do
1	Explain a past project on a whiteboard	Backend Engineer sprint	Whiteboard communication	Medium	To do
1	Draft 3 STAR stories from past projects	Product Manager (APM) sprint	STAR-format storytelling	Low	To do
2	Practice an offer-negotiation roleplay	Data Analyst sprint	Negotiating an offer	High	In progress
2	Design a URL shortener end to end	Product Manager (APM) sprint	System design basics	High	To do
2	Explain a past project on a whiteboard	UX Researcher sprint	Whiteboard communication	Medium	To do
2	Practice an offer-negotiation roleplay	Quantitative Trader sprint	Negotiating an offer	Medium	Done
2	Design a URL shortener end to end	Software Engineer Intern sprint	System design basics	Low	To do
2	Draft 3 STAR stories from past projects	Backend Engineer sprint	STAR-format storytelling	Low	To do
3	Explain a past project on a whiteboard	Data Analyst sprint	Whiteboard communication	High	Done
3	Solve 10 array & hashing problems	Quantitative Trader sprint	Data structures & algorithms	High	Done
3	Explain a past project on a whiteboard	Software Engineer Intern sprint	Whiteboard communication	Medium	To do
3	Write 5 JOIN queries against a sample schema	Backend Engineer sprint	SQL & relational modeling	Medium	To do
3	Record a 2-minute elevator pitch	Product Manager (APM) sprint	Resume & elevator pitch	Medium	To do
3	Write 5 JOIN queries against a sample schema	UX Researcher sprint	SQL & relational modeling	Low	Done
3	Read one 10-K and summarize the risks	Product Manager (APM) sprint	Financial markets basics	Low	Done
4	Practice an offer-negotiation roleplay	Software Engineer Intern sprint	Negotiating an offer	Medium	To do
4	Draft 3 STAR stories from past projects	UX Researcher sprint	STAR-format storytelling	Low	To do
4	Practice an offer-negotiation roleplay	Backend Engineer sprint	Negotiating an offer	Low	In progress
4	Rebuild your resume against the job posting	Data Analyst sprint	Resume & elevator pitch	Low	Done
4	Design a URL shortener end to end	Quantitative Trader sprint	System design basics	Low	To do
